### **Drawings**

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings submitted on 2/12/2009 are informal because the lines in the figures are broken and non-solid lines. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The requirement for corrected drawings will not be held in abeyance. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The response filed on 2/12/2009 has been considered in view of the specification and the drawings of this application with respect to the references of the record. Applicant's argument is persuasive. The priority is thus validly claimed for this application.

The references of the record taken alone or in combination fail to teach or suggest a continuous measure of the amplitude of the bus ripple, a comparison with a reference value of the bus ripple and the calculation of the variation amount with respect to the reference value, and a subsequent variation of the voltage applied to the motor windings as a function of the variation amount thus obtaining a minimum current absorption by the motor as recited in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to /PAUL IP/ whose telephone number is (571)272-1941. The examiner can normally be reached on Monday to Friday from 6:30 am to 3:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Walter Benson can be reached on (571)-272-2227. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
